

## INTERIOR/EXTERIOR CLEANER FOR POLISHED STONE

### DESCRIPTION AND USE

This unique chemistry is a neutral cleaner with a lot of advantages for interior or exterior cleaning of polished stone, such as marble and granite. A very mild pleasant odor and non-corrosive non-hazardous components make it safe for both the user and the environment. P.S.C. is capable of removing smoke, heavy finger soils, sealers and waxes, and foot traffic soil without any harm to the stone surface. Another real benefit of the product is that it does not foam on pickup, so that if you must vacuum the residue you will not waste time clearing foam or de-foaming. All of these characteristics make the soap readily disposable to sanitary sewer or easily treated in a waste reclaim system.

### ADVANTAGES

- \* Renews the surface of the polished stone without any hazards.
- \* Neutral pH makes the soap personally and environmentally safe.
- \* Low foaming non-emulsifying characteristics make it great for disposal or treatment.

### LIMITATIONS

- \* The undiluted or highly concentrated product should not be left on a painted surface too long. This can be evened out by reapplication of the product over the area and rinsing properly.
- \* This product may dry out skin if used over prolonged periods of time without gloves.

### TECHNICAL DATA

Appearance & Odor: Mild odor, colorless

Physical State: Liquid.

pH: 7.8

Vapor Pressure (mmHg): As water

Vapor Density (air=1): As water

Boiling Point: 210° F

Freezing/Melting Point: 32° F

Specific Gravity (water =1): 1.07

Evaporation Rate: N/A

Solubility in water:

### PRE-TESTING

Always test prior to beginning full-scale cleaning operations. Testing should confirm cleaning effectiveness on each type of surface and stain designated to be removed. Testing also determines the desired dwell time and any potential for adverse reactions with adjacent materials. Allow test panels to dry thoroughly before evaluating final appearance and results.

### DILUTION

- Use undiluted (straight) up to 50:1 for regular light duty cleaning
- Use undiluted (straight) up to 4:1 for removing smoke damage or sealers
- 4:1 - 20:1 for removing heavy finger soil or foot traffic dirt

### APPLICATION INSTRUCTIONS

The product may be applied by spray, brush, wipe, or sponge at the recommended dilutions. Agitate as needed or simply allow adequate dwell time on the surface for the soil to be wiped mopped or sprayed away. Rinse depends on surfaces to be cleaned and dilutions. At high dilutions no rinse may be needed but at the stronger concentrations you will need to rinse away the softened soil with a spray or clear mop.

### COVERAGE RATES

Coverage will be based on dilution.

### SAFETY INFORMATION

Precautionary Measures: You may wear goggles and rubber gloves when handling this product. Keep off of skin and clothing. If material comes in contact with clothing, wash before reuse. No Hazardous Ingredients. Not regulated by the DOT. Keep container closed when not in use. Dispose of empty containers according to federal, state, and local requirements. Do not remove label. Read Material Safety Data Sheet for additional safety and health hazard information prior to use.

### SPILL OR LEAK PROCEDURES

Check with the state, local, or federal regulations for waste disposal methods in the area. Wear proper protective equipment while doing cleanup. For large spills, dike and contain for intended use. For small spills, use a chemical absorbent product and place in approved container for disposal.

### CONTAINER HANDLING/STORAGE

Store the product in a cool, dry place away from acids. Keep container tightly closed when not in use. Do not use pressure to empty container. Wash thoroughly after handling. Do not use container as dilution or rinsing vessel. Empty containers retain residue and must be handled as if full.

**INTERIOR/EXTERIOR CLEANER FOR POLISHED STONE**

**INSTRUCTIONS IN CASE OF CONTACT OR EXPOSURE**

General advice: Consult a physician. Show safety data sheet to the doctor in attendance. Remove contaminated clothing.

If inhaled: If breathed in, move person to fresh air. Call a physician. If not breathing, give artificial respiration.

In case of skin contact: Take off contaminated clothing and shoes immediately. Wash off with soap and plenty of water. Wash clothes before reuse. If irritation persists, call a physician.

In case of eye contact: Rinse thoroughly with plenty of water for at least 15 minutes. Consult a physician immediately. Continue rinsing eyes during transport to the hospital.

If swallowed: Do NOT induce vomiting. Rinse mouth with water. Never give anything by mouth to an unconscious person. Consult a physician immediately.

**DISCLAIMER**

The information herein is given in good faith, but no warranty, either expressed or implied, is made. Final determination of the suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot be sure or guarantee these are the only hazards which exist.

**CUSTOMER SERVICE**

Factory personnel are available for assistance at (724) 656-1055 and will send you additional information on products as necessary.
